

Important Information

It is important that you follow the recommended installation instructions and schematic provided with each steering kit. If you choose to ignore the instructions Zeiger Industries will in no way or under any circumstances be liable for any damages caused by their products.

Technical Service Data and Support:

For technical service information covering all component parts call technical service department at (419) 621-7770.

Prices:

All prices are subject to change without written or verbal notice. Price sheets are intended for use as a guideline only. All products are shipped at current prices at the time of order. Faxed orders are processed more rapidly. Fax orders to (419) 621-7772. Please include name, telephone number, shipping address, shipping instructions (ground, red, etc.) and purchase order number.

OEM Requirements:

Proof of boat manufacturing operations, including bare hull, will be required to qualify for OEM pricing. (Possession of our OEM price sheet does not qualify a company to purchase at OEM pricing).
(see terms and conditions for details)

Dealer Requirements

Proof of marine retail operations will be required to qualify for DEALER pricing. (Possession of the Dealer price sheets does not qualify a company/person to purchase at DEALER pricing).
(see terms and conditions for details)

NOTICE TO BOAT MANUFACTURERS

We design and build all components of our steering systems for no-compromise performance and back them with technical support and warranty that are second to none. Steering system performance and integrity can be severely compromised by "mixing and matching" steering parts from different manufacturers. Therefore, we strongly recommend that when replacing steering.

Do NOT replace one manufacturer's steering components with those of another!

Warnings and Cautions are used to alert the manufacturer or installer to special instructions concerning a particular service or operation that may be hazardous if performed incorrectly or carelessly.

Observe them carefully!

These "safety alerts" alone, cannot eliminate the hazards that they signal. Strict compliance to these special instructions when performing the installation and maintenance plus "common sense" operation are major accident prevention measures.

DANGER

Immediate hazards which **WILL** result in severe personal injury or death.

WARNING

Hazards or unsafe practice which **COULD** result in severe personal injury or death.

CAUTION

Hazards or unsafe practice which **COULD** result in minor injury product or property damage.

NOTICE

Information which is Important to proper installation or maintenance, but is not hazard-related.
